WESTERLY VOTES \$2,000

To Improve Road to Pleasant View—Hope Valley May
Lose Important Industry—High School Seniors Hold
Class Election—Band Concert Enjoyed.

Moderator Eugene B. Pendleton pre-
sided at the special town meeting
Thursday morning in the town hall,
called upon petition of taxpayers of
the Pleasant View section.

After Clerk Everett E. Whipple read
the petition, signed by Joseph T. Mur-
phy and twenty-six others, and the of-
ficial call for the special meeting,
James Collins presented a resolution
in behalf of the petitioners.

The resolution instructed the town
council of Westerly to expend from
the regular appropriation for highways
before July 1, 1910, the sum of \$1,000
in graveling and repaving Crandall
lane, and also \$1,000 for the improve-
ment of the road back of the cottages
at Pleasant View and known as At-
lantic avenue, and that the sum of
\$2,000 be appropriated for that pur-
pose.

Upon motion of ex-Governor George
H. Utter, the courtesy of the meeting
was extended to Attorney Arthur B.
Crafts, former resident, now a prop-
erty owner at Pleasant View.

Mr. Crafts explained that the resolu-
tion was drawn up to meet all known
objections, that a special appropriation
was not asked for, but that a part of
the regular appropriation of \$10,000 for
highways be utilized and that the bal-
ance, if any was required, could be
taken from the annual appropriation of
next year. He said that the work
should be completed before the next
summer season. Pleasant View prop-
erty owners pay taxes to the amount
of \$1,500, and in the next year assess-
ment there will probably be an in-
creased taxable valuation of \$15,000,
and the year following this will un-
doubtedly be increased to \$20,000 or
\$30,000. And for all this Pleasant View
gets nothing; no police, no fire, no
school or light benefits. For the past
fifteen years only very small amounts
have been expended on the roads in
the Pleasant View section, and the
Shore road, too, has been very much
neglected.

At this point Mr. Crafts gave praise
to Senator Louis W. Arnold. Mr. Crafts
announced that the long neglected
Shore road, which had been accepted
as a state road, was, through the ef-
forts of the senator, to receive the at-
tention of the state board of public
roads. Senator Arnold was in con-
sultation with the members of the
state board Wednesday in Providence
and urged action for improvement of
the Shore road.

The work will be commenced at the
point where the road intersects the
macadamized Watch Hill road and will
be extended for a distance of about two
miles, from Avondale to Brightman's
farm.

Treasurer Pendleton stated that if a
vote was adopted appropriating \$3,000
in addition to the regular appropriation
that the debt limit would be ex-
ceeded and that it would be his duty to
ignore the action of the town meeting
in that particular. Finally a resolu-
tion satisfactory to the makers was
prepared and presented by Governor
Utter, after the original resolution was
withdrawn by Mr. Collins. The resolu-
tion follows:

Resolved, That it is the sense of this
town meeting that the town council
shall expend from the annual appropria-
tion made for the maintenance and

repair of the highways of the town as
much as is possible, not to exceed the
sum of \$2,000, to gravel and repair the
highway known as Crandall's lane, run-
ning from the Shore road to Pleasant
View, and in graveling and repairing
the roadway back of the cottages and
known as Atlantic avenue. Said work
to be done before July 1, 1910.

This resolution was adopted without
opposition and the meeting was dis-
solved.

There was a rumor in Westerly on
Thursday that the New York Battery
Power company, lessees of the Nichols
& Langworthy machinery company
plant at Hope Valley, before and at the
time of its destruction by fire, was to
abandon Hope Valley and locate in
New London. This concern manufac-
tures the Dock marine engine, of
which Herman Dock of Westerly is the
inventor and supervising constructor.

The Dock family occupies the Han-
nah B. W. Brown homestead in High
street, one of the most attractive resi-
dences in Westerly, and townspeople
hope that a change in business loca-
tion will not necessitate a change of
residence.

The members of the senior class of
the Westerly High school assembled
Thursday afternoon and elected these
officers: Frank K. Dutton, president;
Harriet Nye, vice president; Harriet
D. Lewis, secretary; C. Starr Barker,
treasurer. Mr. Dutton has been pres-
ident of his class during the past three
terms.

police committee of the town council,

ment that the bill was for three
months' service. The period was for
five months.

WHAT THE PAPERS SAY.

McLean versus Bulkeley.

Although Senator Morgan G. Bulke-
ley's term will not expire until 1911,
the contest for his seat is already in
progress in Connecticut. Mr. Bulkeley
would presumably like to succeed him-
self, but ex-Governor George F. Mc-
Lean of Simsbury, Hartford county
(whose sister wrote "Cape Cod Folks"),
is in the field and will make a strong
bid for the place. A certain advantage
lies with the present incumbent, but
his rival is younger, knows Connecticut
politics from A to Z, and will have
the assistance of a company of trained
workers, some of them recruits from
the Bulkeley ranks. The outcome is
therefore uncertain. Generally speak-
ing, it may be hoped that McLean will
win, for, while he formerly trained
with much the same crowd as the pre-
sent senator, he has shown some new
and likable qualities, is an attractive
public speaker, made a good governor
and might have been elected, when
Senator Brandegee was first chosen if
it had not been for the employment of
the geographical argument against
him.—Providence Journal.

NEW G. A. R. ASSOCIATION.

Formed by Men of Bristol and Vicinity.

Several members of the Grand Army
who live near Bristol met at Lake
Compoose last year at the invitation
of Postmaster Ira E. Hicks of New
Britain and held a dinner, after which
plans were talked over concerning the
forming of an association to meet ev-
ery year at the same place and hold a
dinner. Invitations were sent out and
about 200 members of the Grand Army
met at the lake Saturday and formed
an organization to be known as the
Grand Army association of Connecticut
and elected officers and also voted to
hold a reunion and dinner yearly at
the same place.

The officers elected were: President,
Ira E. Hicks of New Britain; vice
president, J. Fayette Douglass of For-
estville; treasurer, E. A. Blake of Meri-
den; secretary, E. R. Nichols of Ches-
hire.

Speeches were made by several old
veterans who urged all present to make
an effort to be present next year and
each one try to get another member.

Stepmother for Young Robins.

It is not an unusual thing for a
man, after losing his wife, to get an-
other mate to care for his motherless
youngsters. Few cases have been re-
ported, however, in which a bird re-
sorted to such an expedient. One of
the few was observed by George
Jacobs of this village. He has trees
near his home. Two robins built a
nest in one of them, recently, and
hatched out a brood last Friday. On
Saturday a heartless boy from another
section of the village shot and killed
the mother robin with an air rifle.
The cock robin was in despair. It did
the best it could to feed and shelter
the little ones, but it was a poor
best.

All day Monday it was busy finding
and carrying worms and other tidbits
to the nest. Then it flew away.
Jacobs and his neighbors took it for
granted the bird had deserted the
brood and that the young robins would
starve to death. They were surprised
and pleased Tuesday, however, when
the cock robin returned, and with it
a new mate. The two birds flew to
the tree and examined the nest. After
conversing for a few minutes the female
hopped on the nest and covered the
youngsters, and the cock robin flew
away to look for food. In a few min-
utes he returned with a long, fat
worm. Passing it over to its new
mate to be served to the half-starved
birds, it hurried away looking for
other dainties. After many contribu-
tions to the family, later the cock
robin sat on a limb near the nest and
sang its love song.—New Suffolk (L.I.)

Ordered Six Dreadnoughts.

A new kind of golf driver named
the dreadnought has been invented.
It was named for the big battleships
which are supposed to be invincible.
The other day the manufacturer of
this new club received a telegram
from a famous golfer, saying "Build
me six dreadnoughts and ship before
the last of the week." And it is relat-
ed that the telegraph officials who, by
the way, were English, were astound-
ed beyond measure at the enterprise
indicated by the proposition to build
six dreadnoughts in the space of a week.—
